

International Distributor Conference

In August we hosted our 1st International Distributors Conference at our new manufacturing facilities in Nanyang. 8 countries represented and all delegates were, 'wowed' by our new manufacturing and office facilities. We appreciated the chance to explain in detail our manufacturing processes and the scrutiny of the detail of our materials and testing that go into our products. We are looking forward to building a better future for our customers & our great team of distributors.

Dawcul in Poland Win Again

Our distributors in Poland have secured another order for Bellow Seal Globe Control valves for chlorine service for a leading European chemical manufacturer. The 5801 series will be supplied precisely to the customer's specifications. Congratulations to Kris & Tomasz for their hard work and persistence to ensure the detailed valve configuration and the customer's satisfaction.

Thailand's Proven Performance leads to Sustainability

In Thailand an end user made a sustainable choice to buy more HMV manual valves after performing well for nine years on chlorine service. Moving forward the paper manufacturer has also committed to servicing the valves every 2 to 3 years from now on giving further sustainability to the life of the products in their hazardous chemical service. Service & Repair kits for existing valves which consist of Gaskets, Packing Rings, nuts, washers, studs and plates and the expertise of Plant Equipment Co Ltd our Thai distributor's with their fully equipped workshop, will ensure an even higher level of customer satisfaction.

Westlake Corporation adds Hunt & Mitton

Following diligent and persistent work by our USA distributors Chemflow Products in Houston, we are pleased to announce that Hunt & Mitton Bellows Seal and Packed Gland Globe valves have now been officially added to the Westlake Valve Specifications list for sizes 1/2" through 16" for chlorine service. This is a great result and allows us the opportunity to continue promoting our products to the corporation offering the highest product quality and customer service. Westlake are a major global chemical manufacturer with operations in Asia, Europe and North America.
