

## AMAI Conference & Exhibition India March 2024

India's Chlor-Alkali Industry continues to develop its production capacity at a pace. This year the largest conference was held in the city of Ahmedabad. HMV exhibited and presented at the conference and met with many of our end users and potential customers where we reassured them of our continued support to the chlor-alkali market in India. There is no doubt that India will remain a very important player in our industry. Attending the booth for HMV was Rajesh Gandikota, Diana Tu and Nick Greenall.

## HMV Completes 1000th Customer Order March 2024

We continue along our journey of company development with a milestone of completing the 1000th customer order for World Class Bellows Seal Globe Valves for the international hazardous chemical industry. We are proud to have achieved this at our new factory in Nanyang in March 2024 and we look forward to the next 1000 orders from our international customers, by helping them to stay safe and protect the environment from harmful leakages.

## Samuda Chemicals chooses HMV Isolation valves

When Bangladesh's largest caustic soda producer needed to replace their previous suppliers bellow seal globe isolation valves for their chlorine line, they chose HMV's 8800/01 range of Valves. The valves will be installed in the main chlorine line that has undergone routine maintenance. The plant is located at Jamaldi on the south bank of the Meghna river and is one of the sources for chlorine in Bangladesh. Samuda produces 25 different chemicals at its plants.

## Chemflow's High Level of Service Wins Business

When two of the world's leading chemical companies had urgent requirements for 3/4" through 4" bellows seal globe isolation valves, they came to Chemflow, our exclusive distributors based in Tomball Texas, to provide them with our world class valves. Within days customers had their valves delivered from inventory and were able to get their lines running again and production back on track. OxyChem and Covestro were the beneficiaries of the high level of customer service that our customers can expect from Chemflow Products.
